Dear Sir,

I have purchased and read most all books written on the assassination of President Kennedy, including your series of "Whitewash" and "Post Mortem." I have also followed your work as a chief investigator in this murder, which includes seeing you occasionally on TV concerning this topic.

I have a library in my home which consists of thousands of books and publications; half on President Kennedy's life & times; the other half on my fairly in dept study/investigation on the assassination. I was 12 years old when Kennedy was shot.

I have been to Dealey Plaza twice, once in 1982, at which time I had a personal recorded interview at Parkland Memorial Hospital on Dec. 29, 1982 at 10pm with Mrs. Doris Nelson, R.N. My second trip was this past Nov. 14-17, 1991 for the first JFK assassination symposium. I met Jackie, Ted, Caroline, & John Kennedy III at a reception in Boston on May 29, 1990 when they unveiled the statue

honoring President Kennedy on his 73rd birthday. I was invited (my wife & I) to a private reception by the family after the unveiling. I have also met and spoke with Dave Powers on three occasions, one of which was at this reception. I am currently a member of the JFK Library in Boston, and had a private meeting in U.S. Representative Joe Kennedy's office in Boston last April, 1991. The meeting was brief, but interesting.

I am enclosing a "Points List" I have recently composed of some of the major questions and discrepancies that have evolved over the years regarding the Kennedy assassination conspiracy. Because I consider you one of the most knowledgeable on this subject, I wanted to request a critique of my paper, and also your thoughts on a proposed amendment to the U.S. Constitution that I have drafted. Any comments or response by you personally would be deeply appreciated.

Thank you sincerely for consideration of my request.

Dave Hall
